OBJECTIVE

I am a versatile Computer Science & Engineering student passionate about the intersection of **Web Development** and **Artificial Intelligence**, with hands-on experience building web applications with **React, NodeJS, and MySQL**, as well as developing advanced systems for medical imaging and real-time object detection on **IoT hardware**. I am eager to apply my broad technical skills, communication abilities, and a results-driven mindset to a challenging role where I can contribute to innovative projects and grow professionally in the tech industry.

EXPERINECE

- GAOTek Inc.   Delaware, USA
Web Developer Intern,   February 2025 – May 2025
Internship (Remote)

-Website Design & Development: Utilize tools like Elementor, Gutenberg, and WPBakery Page Builder to create responsive and visually appealing WordPress websites.
-Performance Optimization: Enhance site speed and user experience through effective performance optimization techniques.
-SEO Implementation: Apply SEO best practices to improve search engine rankings and drive organic traffic.
-Continuous Learning: Stay updated with the latest trends in web design, WordPress updates, and emerging technologies.

EDUCATION

- East Delta University   Chattogram, Bangladesh
  B.Sc – Computer Science and Engineering   January 2023 – Present
  Current CGPA-3.75(out of 4) Expected to finish(September-2026)
- Govt. City College   Chattogram, Bangladesh
  HSC – Science GPA 5.00(out of 5.00)   -2020
- Bakolia Govt High School   Chattogram, Bangladesh
  SSC – Science GPA 5.00(out of 5.00)   -2018

RESEARCH INTERESTS

- Machine Learning, Deep Learning, Natural Language Processing, Artificial Intelligence.

HONORS AND AWARDS

- Board of Trustees Grant, Issued by East Delta University.
  - Awarded a 30% tuition scholarship based on academic merit in secondary and higher secondary education.
  - Evaluated on a per-semester basis, maintenance of a minimum 3.00 CGPA is required.
- School of Science, Engineering and Technology Dean's List (Fall-23, Spring-24, Fall-24, Spring-25, Summer-25)
  - Securing a GPA above 3.70 per semester
- School of Science, Engineering and Technology VC's List (Summer-24)
  - Achieving GPA 4.00 out of 4.00

MEMBERSHIP AND VOLUNTEERING

- EDU Computer Club
  - General Member
- ICT Olympiad Bangladesh
  - Campus Ambassador (Leader)- Season 3
- East Delta University Placement Day 2025
  - Represented EDU Future-World Stall, Recruitment Booth support.
- East Delta University Admission Fair
  - Assisted and worked in the accounts section (Fall-25)
  - Represented EDU Computer Club (Summer-25)
- Access Academy
  - Crowd Management, Sound Management (Meraki Season 16 & 18)

SKILLS

- Languages: Python, C, C++, JavaScript,Java, MySQL, HTML5,CSS,MongoDB Atlas
- Frameworks: Django, React JS, Material UI.
- Project Management: Git, GitHub
- Currently working on Google Colab as a first step for Machine Learning with Python libraries.
- Recently worked on an IoT project with Arduino IDE and libraries.

CERTIFICATIONS

- Programming Languages: HTML5, CSS3, BOOTSTRAP4.
  - C++ for C programmers Part A from Coursera
- Extracurricular Certificates:
  - Freelancing from 10minSchool.
  - Personal Branding from Casper Academy.

RELEVANT COURSEWORK COMPLETED

- CSE 211: Data Structure
- CSE 221: Algorithm
- CSE 226: Database Management System
- CSE 311: Operating System
- CSE 313: Data Communication
- CSE 325: Computer Networks
- CSE 242: Web Development Project
- CSE 342: IoT-Based Project

- MATH 207: (Integral, Vector & Linear Algebra)
- MATH 205: Numerical Analysis
- MATH 203: Fourier analysis, Laplace transform, & Differential equations
- MATH 301: Probability and Statistics
